*Hermann D. Schubert MD*

**2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous** Hermann D. Schubert MD

Provides an overview of the structure and function of the retina and its relationship to the pigment epithelium, choroid and vitreous. Describes the major vitreoretinal disorders and appropriate diagnostic methods and treatment principles.

In its last major revision, Section 12 was reorganized into 17 chapters. Separate chapters are now devoted to age-related macular degeneration, diabetic retinopathy, and retinopathy of prematurity, including the latest imaging techniques and choroidal detail. Selected therapeutic topics include laser therapy and vitreoretinal surgery.

Upon completion of Section 12, readers should be able to:

- \*Select appropriate methods of examination and ancillary studies for the diagnosis of vitreoretinal disorders
- \*Describe the principles of medical and surgical treatment of vitreoretinal disorders
- \*Incorporate data from major prospective clinical trials in the management of selected vitreoretinal disorders

### **From reader reviews:**

#### **Beatrice Pearson:**

The book 2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous make one feel enjoy for your spare time. You need to use to make your capable much more increase. Book can being your best friend when you getting tension or having big problem with your subject. If you can make studying a book 2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous for being your habit, you can get a lot more advantages, like add your capable, increase your knowledge about a number of or all subjects. It is possible to know everything if you like available and read a book 2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous. Kinds of book are several. It means that, science guide or encyclopedia or others. So , how do you think about this reserve?

#### **Jim Weigel:**

Reading can called imagination hangout, why? Because if you are reading a book particularly book entitled 2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous your thoughts will drift away trough every dimension, wandering in each and every aspect that maybe not known for but surely will end up your mind friends. Imaging every single word written in a e-book then become one web form conclusion and explanation which maybe you never get previous to. The 2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous giving you yet another experience more than blown away your head but also giving you useful info for your better life in this era. So now let us explain to you the relaxing pattern is your body and mind are going to be pleased when you are finished examining it, like winning an activity. Do you want to try this extraordinary shelling out spare time activity?

#### **Kelley Thornton:**

A lot of publication has printed but it is unique. You can get it by world wide web on social media. You can choose the best book for you, science, comedy, novel, or whatever simply by searching from it. It is named of book 2013-2014 Basic and Clinical Science Course, Section 12: Retina and Vitreous. You can contribute your knowledge by it. Without causing the printed book, it could possibly add your knowledge and make a person happier to read. It is most significant that, you must aware about reserve. It can bring you from one destination to other place.

#### **Sandra Forester:**
