## XQuery Priscilla Walmsley

With the XQuery 1.0 standard, you finally have a tool that will make it much easier to search, extract and manipulate information from XML content stored in databases. This in-depth tutorial not only walks you through the XQuery specification, but also teaches you how to program with this widely anticipated query language.

*XQuery* is for query writers who have some knowledge of XML basics, but not necessarily advanced knowledge of XML-related technologies. It can be used both as a tutorial, by reading cover to cover, and as a reference, by using the comprehensive index and appendixes. Either way, you will find the background knowledge in namespaces, schemas, built-in types and regular expressions that is relevant to writing XML queries. This book provides:

- A high-level overview and quick tour of XQuery
- Information to write sophisticated queries, without being bogged down by the details of types, namespaces, and schemas
- Advanced concepts for users who want to take advantage of modularity, namespaces, typing and schemas
- Guidelines for working with specific types of data, such as numbers, strings, dates, URIs and processing instructions
- A complete alphabetical reference to the built-in functions and types

You will also learn about XQuery's support for filtering, sorting, and grouping data, as well as how to use FLWOR expressions, XPath, and XQuery tools for extracting and combining information. With this book, you will discover how to apply all of these tools to a wide variety of data sources, and how to recombine information from multiple sources into a single final output result.

Whether you're coming from SQL, XSLT, or starting from scratch, this carefully paced tutorial takes you through the final 1.0 standard in detail.

### From reader reviews:

#### **Debbie Siegel:**

Book is to be different for every single grade. Book for children until finally adult are different content. As it is known to us that book is very important usually. The book XQuery had been making you to know about other information and of course you can take more information. It is rather advantages for you. The reserve XQuery is not only giving you far more new information but also to be your friend when you feel bored. You can spend your own spend time to read your reserve. Try to make relationship with all the book XQuery. You never feel lose out for everything should you read some books.

#### **David Mathews:**

People live in this new morning of lifestyle always try to and must have the spare time or they will get great deal of stress from both lifestyle and work. So , once we ask do people have spare time, we will say absolutely of course. People is human not just a robot. Then we request again, what kind of activity have you got when the spare time coming to a person of course your answer may unlimited right. Then ever try this one, reading books. It can be your alternative within spending your spare time, the actual book you have read is definitely XQuery.

#### **Helen Hanson:**

Do you have something that you enjoy such as book? The reserve lovers usually prefer to pick book like comic, brief story and the biggest one is novel. Now, why not hoping XQuery that give your pleasure preference will be satisfied by simply reading this book. Reading practice all over the world can be said as the way for people to know world far better then how they react when it comes to the world. It can't be stated constantly that reading behavior only for the geeky particular person but for all of you who wants to be success person. So , for all you who want to start examining as your good habit, it is possible to pick XQuery become your own starter.

#### **Naomi Harris:**

A lot of book has printed but it is different. You can get it by world wide web on social media. You can choose the most effective book for you, science, comedian, novel, or whatever by searching from it. It is named of book XQuery. Contain your knowledge by it. Without leaving behind the printed book, it could add your knowledge and make you happier to read. It is most essential that, you must aware about publication. It can bring you from one destination for a other place.
