Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux Igor Ljubuncic

Problem-Solving in High Performance Computing: A Situational Awareness Approach with Linux focuses on understanding giant computing grids as cohesive systems. Unlike other titles on general problem-solving or system administration, this book offers a cohesive approach to complex, layered environments, highlighting the difference between standalone system troubleshooting and complex problem-solving in large, mission critical environments, and addressing the pitfalls of information overload, micro, and macro symptoms, also including methods for managing problems in large computing ecosystems.

The authors offer perspective gained from years of developing Intel-based systems that lead the industry in the number of hosts, software tools, and licenses used in chip design. The book offers unique, real-life examples that emphasize the magnitude and operational complexity of high performance computer systems.

- Provides insider perspectives on challenges in high performance environments with thousands of servers, millions of cores, distributed data centers, and petabytes of shared data
- Covers analysis, troubleshooting, and system optimization, from initial diagnostics to deep dives into kernel crash dumps
- Presents macro principles that appeal to a wide range of users and various real-life, complex problems
- Includes examples from 24/7 mission-critical environments with specific HPC operational constraints

From reader reviews:

Judith Tate:

Reading a book to get new life style in this yr; every people loves to learn a book. When you read a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, due to the fact book has a lot of information upon it. The information that you will get depend on what sorts of book that you have read. If you wish to get information about your analysis, you can read education books, but if you act like you want to entertain yourself read a fiction books, these kinds of us novel, comics, as well as soon. The Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux provide you with new experience in reading through a book.

Cathy Duran:

Many people spending their moment by playing outside along with friends, fun activity with family or just watching TV all day long. You can have new activity to pay your whole day by studying a book. Ugh, think reading a book really can hard because you have to use the book everywhere? It alright you can have the e-book, having everywhere you want in your Smartphone. Like Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux which is getting the e-book version. So , try out this book? Let's see.

Bruce Patton:

Reserve is one of source of know-how. We can add our know-how from it. Not only for students but in addition native or citizen will need book to know the change information of year to be able to year. As we know those textbooks have many advantages. Beside we add our knowledge, can also bring us to around the world. By the book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux we can get more advantage. Don't that you be creative people? Being creative person must like to read a book. Simply choose the best book that suitable with your aim. Don't possibly be doubt to change your life by this book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux. You can more desirable than now.

Rose Rafferty:

Many people said that they feel bored when they reading a publication. They are directly felt the idea when they get a half elements of the book. You can choose the book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux to make your personal reading is interesting. Your current skill of reading expertise is developing when you like reading. Try to choose easy book to make you enjoy to study it and mingle the opinion about book and reading through especially. It is to be very first opinion for you to like to open up a book and go through it. Beside that the book Problem-solving in High Performance Computing: A Situational Awareness Approach with Linux can to be your brand-new friend when you're truly feel alone and confuse using what must you're doing of that time.
