TOLERism: The Ideology Revealed Howard Rotberg

The author argues that we have entered an ideology of "Tolerism" - an unhealthy degree of tolerance without limits, and an excessive leniency towards those who represent the most intolerant and illiberal societies. He observes how cultural and moral relativism, moral equivalency, and political correctness have all contributed to a modern political culture whose elites and cultural symbols evidence, not only an undue tolerance of the illiberals, but a disturbing element of self-hatred, cultural masochism, and delusions about the difference between social tolerance and political tolerance - and an elevation of tolerance over the principle of Justice. This original work has been updated in 2013 and will challenge readers' views of contemporary political culture and the values and ideologies of many of our elites.
