**Air Pollution Control Equipment, Vol. 2: Gases** Louis Theodore, Anthony J. Buonicore

Unique problem-and-solution approach for quickly mastering a broad range of calculations This book's problem-and-solution approach enables readers to quickly grasp the fundamentals of air pollution control equipment and essential applications. Moreover, the author sets forth solid principles for the design and selection of air pollution control equipment as well as for its efficient operation and maintenance. Readers gain a deep understanding of both the equipment itself and the many factors affecting performance. Following two introductory chapters, the book dedicates four chapters to examining control equipment for gaseous pollutants, including adsorption, absorption, and incineration equipment. The remaining six chapters deal with equipment for managing airborne particulate pollutants, including gravity settlers, cyclones, electrostatic precipitators, scrubbers, and baghouses. The appendix contains discussions of hybrid systems, the SI system (including conversion constants), and a cost-equipment model. Each chapter offers a short introduction to the control device discussed. Next, progressively more difficult problems with accompanying solutions enable readers to build their knowledge as they advance through the chapter. Problems reflect the most recent developments in pollution control and include a variety of performance equations and operation and maintenance calculations. Each problem includes a statement of the problem, the data used to solve the problem, and a detailed solution. Readers may further hone their skills by visiting the text's Web site for additional problems and solutions. This publication serves both as a textbook for engineering students and as a reference for engineers and technicians who need to ensure that air pollution control equipment operates efficiently and enables their facility to meet all air pollution control standards and regulations.

### **From reader reviews:**

#### **Alan Williams:**

Reading can called mind hangout, why? Because when you are reading a book especially book entitled Air Pollution Control Equipment, Vol. 2: Gases the mind will drift away trough every dimension, wandering in every single aspect that maybe not known for but surely can be your mind friends. Imaging each word written in a book then become one form conclusion and explanation in which maybe you never get previous to. The Air Pollution Control Equipment, Vol. 2: Gases giving you another experience more than blown away your mind but also giving you useful info for your better life in this era. So now let us explain to you the relaxing pattern here is your body and mind will probably be pleased when you are finished reading it, like winning a game. Do you want to try this extraordinary investing spare time activity?

#### **Christine Kaufman:**

You could spend your free time to study this book this publication. This Air Pollution Control Equipment, Vol. 2: Gases is simple to develop you can read it in the park, in the beach, train along with soon. If you did not have got much space to bring the printed book, you can buy often the e-book. It is make you simpler to read it. You can save typically the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

#### **Steven Purdy:**

Don't be worry for anyone who is afraid that this book will filled the space in your house, you could have it in e-book way, more simple and reachable. This specific Air Pollution Control Equipment, Vol. 2: Gases can give you a lot of buddies because by you checking out this one book you have thing that they don't and make anyone more like an interesting person. That book can be one of a step for you to get success. This reserve offer you information that might be your friend doesn't learn, by knowing more than various other make you to be great persons. So , why hesitate? We should have Air Pollution Control Equipment, Vol. 2: Gases.

#### **Jo Jordan:**

You may get this Air Pollution Control Equipment, Vol. 2: Gases by visit the bookstore or Mall. Just simply viewing or reviewing it could possibly to be your solve challenge if you get difficulties to your knowledge. Kinds of this e-book are various. Not only by means of written or printed but can you enjoy this book simply by e-book. In the modern era like now, you just looking because of your mobile phone and searching what their problem. Right now, choose your own ways to get more information about your e-book. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose suitable ways for you.
