Built your own 'Mechs from the construction rules found in the Introductory Box Set and now you want to build all the options found in Total Warfare? The Classic BattleTech TechManual is a companion volume to Total Warfare and combines all the construction rules for the various units presented in that core rules set. Streamlined and updated, it contains all the core weaponry and equipment from previous rules set, as well as the newest, bleeding edge technologies. More than just a rulebook, however, the TechManual presents numerous sourcebook-style treatises, providing the in-universe context for these units and the technologies of their development.
