Modeling Structured Finance Cash Flows with Microsoft® Excel: A Step-by-Step Guide Keith A. Allman

A practical guide to building fully operational financial cash flow models for structured finance transactions

Structured finance and securitization deals are becoming more commonplace on Wall Street. Up until now, however, market participants have had to create their own models to analyze these deals, and new entrants have had to learn as they go. *Modeling Structured Finance Cash Flows with Microsoft Excel* provides readers with the information they need to build a cash flow model for structured finance and securitization deals. Financial professional Keith Allman explains individual functions and formulas, while also explaining the theory behind the spreadsheets. Each chapter begins with a discussion of theory, followed by a section called "Model Builder," in which Allman translates the theory into functions and formulas.
