## Handbook of Research Methods in Human Operant Behavior (Nato Science Series B:)

A host of special methodological issues arise in any discussion of research on human behavior. This practical new volume addresses many of those questions with 19 superb contributions from leading experts in the field. The text evaluates specific strategies and techniques used in laboratory settings, including - reinforcement and punishment - stimulus control - behavioral pharmacology - and methodologies concerning verbal and social behavior, among others. The book includes 135 illustrations and a notable Appendix that offers the APA's ethical guidelines for research with human subjects.
