Personal Property Law: Text and Materials

Sarah Worthington

Personal Property Law: Text and Materials Sarah Worthington

This text addresses the problem of the near invisibility of personal property law within the law curriculum by producing an integrated casebook that covers both the underlying philosophy and concepts of personal property law, and the impact of evolving business practices on the development of the law. The book is inspired by a determination to produce a concept-orientated approach to the subject that has hitherto impoverished the study of the concepts and philosophy of personal property law in the United Kingdom. The book is aimed at undergraduate law students on commercial law courses as well as students on integrated property law courses. By considering all the branches of law that touch commercial transactions, such as equity, trusts, property law and restitution, this work should also be useful for students studying postgraduate commercial law programmes.
