**An An Introduction to Copepod Diversity (Ray Society) (v. 166)** Geoffrey A. Boxhall

This two-volume work provides a family-by family account of all copepods. It is designed to provide an overview of the entire group from marine plankton to subterranean forms and from parasites to minute inhabitants of the interstitial spaces between sediments particles. Above all, this work will enable the reader to identify copepods to the genus-level in the vast majority of cases and will provide entry into the biological literature.
