An updated guide to the approach, assessment and management of poisoned patients Poisoning is a common emergency department presentation, and is the third major cause of hospital admission in Australia. The new edition of this all-encompassing toxicology reference describes the risk assessment-based approach pioneered by its principal authors. *The Toxicology Handbook* is written for hospital-based doctors at all levels and is divided into six sections, including an approach to the poisoned patient, specific toxins, antidotes, toxinology and antivenom. It also deals with specific toxicology considerations like alcohol abuse, dependence and withdrawal, and poisoning in children and the elderly. Important locally relevant information on bites, stings and envenoming is also included. The concise layout of this didactic medical guide enables readers to quickly locate required information - essential in a poisoning emergency. Established as a primary reference in Australian Poisons Information Centres, the *Toxicology Handbook* is useful for doctors, nurses, ambulance service paramedics and pharmacists alike.

- all chapters and references reviewed and updated
- a major review of snake bite management and snake antivenoms in light of new evidence
- new chapters on mushroom poisoning, plant poisoning, amphetamine abuse and solvent abuse
- new chapters on poisoning with newer anticonvulsant drugs, barbiturates, button batteries, chloral hydrate, local anaesthetic agents, quinine and tramadol
- a new antidote chapter on intravenous lipid emulsion
- book chapters have been reorganised for enhanced clinical usability - for example, consolidation of drugs of abuse
- now available in an enhanced electronic format

From reader reviews:

Eleanor Walker:

Nowadays reading books become more and more than want or need but also become a life style. This reading routine give you lot of advantages. Advantages you got of course the knowledge the particular information inside the book which improve your knowledge and information. The details you get based on what kind of e-book you read, if you want have more knowledge just go with schooling books but if you want feel happy read one along with theme for entertaining like comic or novel. Typically the Toxicology Handbook, 2e is kind of publication which is giving the reader unstable experience.

Lucas Florio:

This Toxicology Handbook, 2e is great book for you because the content which can be full of information for you who always deal with world and possess to make decision every minute. This specific book reveal it information accurately using great plan word or we can declare no rambling sentences in it. So if you are read it hurriedly you can have whole data in it. Doesn't mean it only provides straight forward sentences but hard core information with beautiful delivering sentences. Having Toxicology Handbook, 2e in your hand like obtaining the world in your arm, details in it is not ridiculous one particular. We can say that no book that offer you world inside ten or fifteen small right but this reserve already do that. So , this can be good reading book. Hello Mr. and Mrs. stressful do you still doubt that?

Roger Alford:

Reading a book to become new life style in this season; every people loves to go through a book. When you learn a book you can get a great deal of benefit. When you read guides, you can improve your knowledge, simply because book has a lot of information on it. The information that you will get depend on what forms of book that you have read. If you would like get information about your examine, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this kind of us novel, comics, along with soon. The Toxicology Handbook, 2e provide you with a new experience in studying a book.

Stephen Medley:

Reading a publication make you to get more knowledge from this. You can take knowledge and information from a book. Book is written or printed or descriptive from each source that will filled update of news. On this modern era like now, many ways to get information are available for anyone. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, book and comic. You can add your understanding by that book. Do you want to spend your spare time to open your book? Or just looking for the Toxicology Handbook, 2e when you required it?
