Brave New Avant Garde: Essays on Contemporary Art and Politics Marc James Leger

Brave New Avant Garde is a collection of essays that ask the questions: what is an adequate model of contemporary avant garde practice and what are its theoretical premises? With this it asks the related question, echoing Alain Badiou: must the avant garde hypothesis be abandoned? *Brave New Avant Garde* stands in opposition to postmodern post-politics and the view that radical practice has no other future than its reduction to the workings of the free market in the form of the "simple process of cultural production" or to variations on the cultural politics of representation. Today's avant garde, formed in the wake of the end of the Soviet Union and the rise of the anti-globalization movement, represents a counter-power that rejects the inevitability of capitalist integration. The way out for artists in today's world of creative industries is defined in these pages as a psychoanalytically informed *sinthomeopathic practice*, a critical identification with prevailing conditions of production that avoids the surplus enjoyment of the ideology of postmodern pluralism.
