Tom Clancy Commander in Chief: (A Jack Ryan Novel) by Mark Greaney | Summary & Analysis

Mark Greaney pushes the bestselling Tom Clancy series forward in an expansive, gripping narrative that calls back to Clancy's classic works and reminds readers why the literary universe where Jack Ryan lives has endured for decades. A gripping narrative replete with detailed, authentic characters, tightly paced and all too plausible in the scenario it presents, accessible to new readers and familiar to the old.

It depicts an escalation of political and economic tensions in Russia and the Baltic states, particularly Lithuania, into open armed conflict. The conflict is instigated by Russia to reassert its prominence to itself and to the world at large, but even as it goes on, the Russian president takes steps to secure his financial independence when his term of office is ended – and it is that action that attracts the attention of Jack Ryan, Jr., even as his father, the President of the United States, must negotiate the regional and global consequences of his Muscovite counterpart's perfidy.

This companion includes the following:

- Book Review
- Story Setting Analysis
- Enjoy a Deeper Experience
- Story elements you may have missed as we decipher the novel
