Food: Activities for 3-5 Year Olds - 2nd Edition Adrienne Walton

Children are naturally interested in food and it is an ideal topic around which to build worthwhile learning experiences. The practical activities in this book range from simple recipes to sorting and classifying games and include many ideas for using popular children's picture books within the theme. All of the play activities are designed to develop important preschool skills and a deeper understanding of the world and are linked to the Early Learning Goals of the Statutory Framework for the Early Years Foundation Stage, revised by the Department of Education for September 2012.
