Who or What is Behind the Cattle Mutilations?

The cattle mutilation phenomenon is an ongoing mystery that has endured for almost 50 years. What have we learned, if anything, from the countless reports filed? Who or what is behind the death and disfigurement of livestock reported as mutilated around the globe?

Are these deaths simply attributable to natural predators and scavengers? Or is the military/government somehow involved? Are the deaths the action of ritual "cultists" as police say the evidence would suggest? Is it possible that alien predators are involved, as some researchers and the media have suggested? Are mystery helicopters or UFOs related to the cattle mutilation phenomenon as many witnesses have claimed?

Regardless of who or what is responsible, what are the motivations behind perpetrating what may be the greatest unsolved serial crime spree of all time?

Stalking the Herd addresses these questions in depth and also offers an objective look at the history of our venerated relationship with cattle, among the first domesticated livestock. Is there a connection between these ritualistic cattle deaths and humankind's ancient practice of animal sacrifice? Why are there no Brahman cattle mutilations in India where cattle are revered to this day? Are aliens gathering genetic material for unknown purposes? What about the thousands of pounds of scientific forensic evidence? Are some hidden sections of the military conducting secret projects that--for some reason known only to them--involve the mutilation of hundreds of livestock and other warm-blooded animals. Are they monitoring the spread of "mad cow" disease?

Stalking the Herd is an in-depth examination and analysis of this complex, multi-layered mystery and this book scrutinizes the various explanations that have been proposed over the years and proposes new theories that have chilling implications.
