The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) Lee T. Wyatt III

The Industrial Revolution that began in Great Britain in the mid-seventeenth century transformed the British economy—and later the economies of Western Europe and the U.S.—from a rural, agricultural system into an industrial society, centered around the factory system of mass production and specialized labor. The right mix of social, political and legal conditions in Britain at the time led to the discovery of labor. The right mix of social, political and legal conditions in Britain at the time led to the discovery of fresh sources of power and energy, and to advances in agriculture, manufacturing, communication and transportation. Notable results included the steam engine, which made possible everything from textile factories to railroads, and, later in the U.S., the cotton gin, electric light, and automobiles.

This comprehensive volume explores all these events and more, including the aftermath of the Revolution?its spread beyond Britain and the U.S. to Asia and throughout the world, allowing for a higher standard of living while challenging that standard with increased pollution and health problems, a widened economic and social class gap, and a weakening of traditional family structure. Biographical sketches of key figures, a chronology of events, primary document excerpts from the period, and a print and nonprint source bibliography supplement the work.

From reader reviews:

Edward Baca:

Often the book The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) will bring someone to the new experience of reading the book. The author style to explain the idea is very unique. Should you try to find new book to study, this book very ideal to you. The book The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) is much recommended to you you just read. You can also get the e-book from the official web site, so you can easier to read the book.

Melinda Miller:

Many people spending their time frame by playing outside using friends, fun activity using family or just watching TV the whole day. You can have new activity to spend your whole day by looking at a book. Ugh, do you think reading a book will surely hard because you have to take the book everywhere? It all right you can have the e-book, taking everywhere you want in your Smart phone. Like The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) which is keeping the e-book version. So , why not try out this book? Let's observe.

Frederick Roark:

This The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) is brand-new way for you who has fascination to look for some information as it relief your hunger of knowledge. Getting deeper you upon it getting knowledge more you know or else you who still having tiny amount of digest in reading this The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) can be the light food for you because the information inside this particular book is easy to get through anyone. These books build itself in the form that is certainly reachable by anyone, that's why I mean in the e-book application form. People who think that in book form make them feel sleepy even dizzy this guide is the answer. So you cannot find any in reading a publication especially this one. You can find actually looking for. It should be here for you actually. So , don't miss it! Just read this e-book style for your better life along with knowledge.

Devin Glass:

As a university student exactly feel bored in order to reading. If their teacher expected them to go to the library or to make summary for some reserve, they are complained. Just tiny students that has reading's soul or real their interest. They just do what the instructor want, like asked to go to the library. They go to there but nothing reading really. Any students feel that looking at is not important, boring along with can't see colorful images on there. Yeah, it is to get complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this The Industrial Revolution (Greenwood Guides to Historic Events 1500-1900) can make you truly feel more interested to read.
